Alumni Spotlight

Duchess Ginton

One memory stands out when describing my best moment at my current job. Two months ago, I was attempting a complex credit application. So many variables made the application a little more challenging than usual. There was also a bit of a time crunch as the customer needed that approval decision within the same week (this specific application usually takes 2-3 weeks). Using some of the information I received at school, along with my knowledge and ongoing practice at work, I was able to get the application approved within two days! It was a successful experience for everyone involved and a memorable one to share continuously.
